BARFOOT & THOMPSON DISCLAIMER

This document has been obtained on behalf of the client and is made available to customers for general information purposes only. Neither Barfoot & Thompson nor their client warrant the accuracy, completeness or currency of this document nor do they accept liability for any errors or omissions in this document. All customers should obtain and rely on their own documents and legal advice.

Applicant	Barfoot & Thompson Epsom
LIM address	1/27A Kingsview Road Mount Eden Auckland 1024
Application number	8270357083
Customer Reference	
Date issued	29-Nov-2021
Legal Description	Flat 1 DP 186617, 1/3 SH Lot 4 DP 37471, 1/3 SH Lot 5 DP 37471, 1/3 SH L
Certificates of title	NA116D/788

Disclaimer

This Land Information Memorandum (LIM) has been prepared for the applicant for the purpose of section 44A of the Local Government Official Information and Meetings Act 1987.

The LIM includes information which:

- Must be included pursuant to section 44A of the Local Government Official Information and Meetings Act 1987
- Council at its discretion considers should be included because it relates to land
- Is considered to be relevant and reliable

This LIM does not include other information:

- Held by council that is not required to be included
- Relating to the land which is unknown to the council
- Held by other organisations which also hold land information

Council has not carried out an inspection of the land and/or buildings for the purpose of preparing this LIM. Council records may not show illegal or unauthorised building or works on the land.

The applicant is solely responsible for ensuring that the land or any building on the land is suitable for a particular purpose and for sourcing other information held by the council or other bodies. In addition, the applicant should check the Certificate of Title as it might also contain obligations relating to the land.

The text and attachments of this document should be considered together.

This Land Information Memorandum is valid as at the date of issue only.

s44A(2)(a) Information identifying any special feature or characteristics of the land

This information should not be regarded as a full analysis of the site features of this land, as there may be features that the Council is unaware of. The applicant is solely responsible for ensuring that the land is suitable for a particular purpose including development.

Site Contamination

No land contamination data are available in Council's regulatory records.

Wind Zones

Wind Zone(s) for this property: Low wind speed of 32 m/s

The wind zones are based on wind speed data specific to all building sites as outlined in NZS 3604:2011. Other factors such as topographic classes, site exposure and ground roughness determine the actual wind bracing demands and bracing elements required for the building.

For further information refer to NZS 3604:2011 Section 5 — Bracing Design

Soil Issues

The Auckland Council is not aware of any soil issues in relation to this land. If any soil information/reports have been prepared in relation to this property, they will be available for viewing at an Auckland Council Service Centre or via the property file product services.

Flooding

This statement entitled "Flooding" appears on all LIMs.

Known flooding information is displayed on the map attached to this LIM entitled "Special Land Features – Natural Hazards - Flooding".

The information shown in the "Special Land Features - Natural Hazards - Flooding" map is also shown on the Auckland Council online map viewer (Geomaps), at www.aucklandcouncil.govt.nz, which is updated from time to time.

Any proposed development may require a flooding assessment to be provided by the applicant.

The absence of flooding on the "Special Land Features - Natural Hazards - Flooding" map does not exclude the possibility of the site flooding, particularly from Overland Flow Paths which may be on other properties.

Overland Flow Path

This site (property parcel) spatially intersects with one or more Overland Flow Paths, as displayed on the map attached to this LIM entitled "Special Land Features – Natural Hazards - Flooding".

Overland Flow Paths are lines representing the predicted route of overland flow, based on analysis of a Digital Terrain Model (derived from aerial laser survey). Overland Flow Paths do not show the width or extent of flow.

Overland Flow Paths are based solely on the terrain and are indicative only.

Overland Flow Paths may flood depending on the amount of rain.

The Auckland Unitary Plan contains policies and rules relating to development and/or works within or adjacent to Overland Flow Paths.

Note: The terms “Flow Path” and “Flowpath” are used interchangeably.

Exposure Zones

New Zealand Standard 3604:2011 classifies all properties in New Zealand into zones based on environmental features including wind, earthquake, snow load and exposure. These zones are relevant to building requirements, such as strength of buildings, materials that should be used and maintenance. All building sites are classified as being in Exposure Zones Extreme Sea Spray, B, C, or D, depending on the severity of exposure to wind driven salt.

This property is classified as: Zone C

Medium — Inland coastal areas with medium risk from wind-blown sea-spray salt deposits. This zone covers mainly coastal areas with relatively low salinity. The extent of the affected area varies significantly with factors such as winds, topography and vegetation. Within each of the zones there are different environmental locations that require fittings and fixtures appropriate to its designation as outlined Tables 4.1 to 4.3 in NZS 3604:2011 being either "closed", "sheltered" or "exposed".

For further information refer to NZS 3604:2011 Section 4 — Durability.

Coastal Erosion

This explanation appears on all LIMs, not just sites that may be susceptible to coastal erosion.

The map entitled “Natural Hazards - Coastal Erosion” shows information on potential coastal erosion and resulting land instability, if any, in relation to this site.

Coastal erosion is the wearing away of land due to coastal processes such as waves and currents. Coastal instability is the movement of land (typically as a landslide) resulting from the loss of support caused by coastal erosion.

Where applicable, the map shows lines that indicate areas susceptible to coastal instability and erosion (ASCIE) within the next 100 years. The lines do not show the future position of the coast. Rather, they show the landward edge of the area that might become unstable as a result of coastal erosion. The area between this line and the sea is considered to be potentially susceptible to erosion, or instability caused by erosion.

The lines represent three timescales, and take into account projected sea level rise based on carbon emission scenarios known as representative concentration pathways (RCP):

- 2050 (0.28 m of sea level rise; RCP 8.5)
- 2080 (0.55 m of sea level rise; RCP 8.5)
- 2130 (1.18 m of sea level rise; RCP 8.5)
- 2130 (1.52 m of sea level rise; RCP 8.5+)

The RCP projections are from the Intergovernmental Panel on Climate Change fifth assessment report (2015), and the related sea level rise values align with Ministry for the Environment Coastal Hazards and Climate Change Guidance for Local Government (2017).

The lines are based on data from a regional study (“Predicting Auckland’s Exposure to Coastal Instability and Erosion”, available on the Council website). The lines may not take into account local variability, and are not intended for site-specific use.

Development on sites affected by potential coastal erosion may be subject to Auckland Unitary Plan activity controls and may require a detailed coastal hazard assessment report to be completed by a qualified expert.

s44A(2)(b) Information on private and public stormwater and sewerage drains

Information on private and public stormwater and sewerage drains is shown on the [underground services map](#) attached.

Note: Private drainage is the responsibility of the land owner up to and including the point of connection to the public sewer or drain.

s44(2)(ba) Information notified to Council by a drinking water supplier under Section 69ZH of the Health Act 1956

Prospective purchasers should be aware of other drinking water systems connected to this property. There may also be private drinking water supply systems such as rainwater tanks or private water bores. You are advised to clarify the drinking water supply with the current landowner.

No Information has been notified to Council.

s44A(2)(bb) Information Council holds regarding drinking water supply to the land

For metered water information, please contact **Watercare (09) 442 2222** for services provided to this property.

s44A(2)(c) Information relating to any rates owing in relation to the land

Billing Number/ Rate Account:	12342677159
Rates levied for the Year 2021/2022 :	\$4,940.59
Total rates to clear for the current year (including any arrears and postponed rates):	\$2,470.27

The rates figures are provided as at 8 a.m. 29/11/2021. It is strongly advised these are not used for settlement purposes.

Retrofit Your Home Programme

The Retrofit Your Home programme provides financial assistance, advice and information to householders wanting to create an improved home environment.

The scheme contributes to the achievement of the Air Quality National Environmental Standards encouraging the installation of clean heat and insulation in homes as well as supporting access to central government grants and subsidies. The programme offers homeowners a retrofit plan for their homes and financial assistance up to \$5000 repaid through a targeted rate.

 Auckland Council (09) 890 7898 if you require further information

 retrofit@aucklandcouncil.govt.nz

s44A(2)(d) Consents, Certificates, Notices, Orders or Requisitions affecting the land or any buildings on the land(da) the information required to be provided to a territorial authority under section 362T(2) of the Building Act 2004:s44A and (2)(e) Information concerning any Certificate issued by a Building Certifier pursuant to the Building Act 1991 or the Building Act 2004

Note: if the land is part of a cross lease title or unit title, consents and permits for the other flats or units may be included in this LIM. If the land has been subdivided there may be consents and permits included that relate to the original property.

It is recommended that the full property file is viewed and compared with the actual building and activities on the land to identify any illegal or unauthorised building works or activities.

Financial / development contributions

Financial and development contributions are relevant for recently subdivided land, vacant lots, new residential unit(s) or where there is further development of a site. If any financial or development contribution has not been paid, Council can recover outstanding amount(s) from a subsequent owner of the land.

Please note that financial contributions and development contributions may be paid in land, cash or a combination of these. The form of payment of contributions may be subject to negotiation but final discretion remains with the Council.

2/27A Kingsview Road Mount Eden Auckland 1024

Application No.	Description	Issue Date	Status
AC/01/10231	Install a spa pool - 7000 l	19/03/2001	CCC Not Issued (See Note 3)

Note	Description
1	Permit issued prior to the Building Act 1991 taking effect. Code Compliance Certificates (CCC) were not required.
2	Code Compliance Certificate (CCC) for this consent was issued.
3	Consent approved but a final Code Compliance Certificate (CCC) for this consent has not been issued. To obtain a CCC an inspection to confirm compliance with the approved plans and standards may be sought.

Please note that prior to the Building Act 1991; Councils were not required to maintain full records of building consents [etc] issued under the Building Act. While Auckland Council has always endeavoured to maintain full records of pre-Building Act 1991 matters, not all records for this period have survived and in other cases where building work is documented, information may be incomplete. Council does not accept responsibility for any omission.

It is recommended that the Council property file is viewed and compared with the actual building and activities on site to identify any illegal or unauthorised building works or activities.

Compliance Schedules (Building Warrant of Fitness)

The Council has no record of a Compliance Schedule for this property/building.

If it is evident that any specified systems such as lifts or commercial fire alarms are present in the building, the owner must ensure there is a current compliance schedule or building warrant of fitness.

Swimming/Spa Pool Barriers

The Council has no record of a swimming pool or spa pool being registered on this property. Swimming pools and spa pools must have a barrier that complies with the Building Act 2004.

Pool barrier information is available for viewing at <http://www.aucklandcouncil.govt.nz>

Licences

There are NO current licences recorded

s44A(2)(ea) Information notified under Section 124 of the Weathertight Homes Resolution Services Act 2006

The Council has not been notified of any information under Section 124 of the Weathertight Homes Resolution Services Act 2006 relating to this property.

s44A (2)(f) Information relating to the use to which the land may be put and any conditions attached to that use

Purchasers or those intending to develop the land should satisfy themselves that the land is suitable for any intended use or future development proposal. In addition to any site specific limitations recorded below, general restrictions that apply across the region may be relevant to any development proposals on this property.

Auckland Unitary Plan - Operative in Part (AUP:OP)

The **Auckland Unitary Plan - Operative in part(AUP:OP)** applies to this property and should be carefully reviewed and considered, as it may have implications for how this property can be developed and/or used. Those parts of the Auckland Unitary Plan that are operative replace the corresponding parts of legacy regional and district plans. However, certain parts of the AUP:OP are the subject of appeals and have not become operative. If a property is subject to an appeal this will be identified on the attached Unitary Plan Property Summary Report. Where this is the case, both the Auckland Unitary Plan Decisions version and the legacy regional and district plans will need to be considered.

The AUP:OP zones, controls, overlays, precincts, and designations that apply to this property are set out in the Property Summary Report, which is attached to this memorandum.

The AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplan>

The legacy regional and district plans can be viewed here:

<https://www.aucklandcouncil.govt.nz/districtplans>

<https://www.aucklandcouncil.govt.nz/regionalplans>

The appeals to the AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

Auckland Council District Plan - Hauraki Gulf Islands Section (Operative 2013) (DP:HGI)

While the regional provisions in the AUP:OP apply to the Hauraki Gulf Islands, and are set out in the Property Summary Report attached to this memorandum, the AUP:OP does not contain any district provisions for the Hauraki Gulf Islands. If the Property Summary Report attached to this memorandum lists its zone as "Hauraki Gulf Islands", the district provisions that apply are in the Auckland Council District Plan Hauraki Gulf Islands Section (Operative 2013) (**DP:HGI**).

The relevant maps of the DP:HGI are attached to this memorandum, if applicable. The text of the DP:HGI can be found here:

<https://www.aucklandcouncil.govt.nz/haurakigulfislands>

Plan Changes and Notices of Requirement

Changes to the AUP:OP and DP:HGI may be proposed from time to time. These proposed plan changes may relate to either the maps or the text of those plans. Any proposed changes to the AUP:OP relevant to this property will be listed as a modification in the Property Summary Report attached to this memorandum. However, proposed changes to the DP:HGI will not appear on the Property Summary report. That information can be found on the Auckland Council website.

Please refer to the AUP:OP for information on any proposed Plan Changes or see the Auckland Council modifications website at:

<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Information relating to any proposed Plan Changes to DP:HGI can be found here:

<https://www.aucklandcouncil.govt.nz/haurakigulfislands>

From time to time a requiring authority, such as a Ministry of the Crown or a council controlled organisation, may notify Auckland Council that they require certain land to be designated for a certain purpose. If this property is the subject of such a notice of requirement, that notice may have implications for how this

property can be developed or used from the date it is received by Council.

If this property is not on the Hauraki Gulf Islands, any notices of requirement applicable will be listed as a modification in the Property Summary Report attached to this memorandum.

If this property is on the Hauraki Gulf Islands, any notice of requirement will be available on the Auckland Council Website.

Information on all current notices of requirement can be found on the modifications page here:

<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Copies of the appeals to the Auckland Unitary Plan can be viewed online at:

<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

Auckland Unitary Plan

Please note that the Auckland Unitary Plan (Operative in part) applies to this property. The Unitary Plan should be carefully reviewed and considered, as it may have implications for how this property can be developed or used. Parts of the Unitary Plan that are relevant to this property relating to zones, overlays, controls, designations and other restrictions are identified in the Property Summary Report attached to this LIM.

The Unitary Plan can be accessed at Council service centres and libraries and can be found on the following internet page:

<http://www.aucklandcouncil.govt.nz/EN/planspoliciesprojects/plansstrategies/unitaryplan/Pages/home.aspx>

Information concerning Caveat, Bond, Encumbrance, Consent Notice and Covenant

For any information concerning Caveats, Bonds, Encumbrances, Consent Notices or Covenants, please refer to the Certificate of Title for this property.

s44A(2)(g) Information regarding the land which has been notified to Council by another statutory organisation

No information has been notified to Council.

s44A(2)(h) Information regarding the land which has been notified to Council by any network utility operator pursuant to the Building Act 1991 or Building Act 2004

Underground Services and District Plan maps are attached.

Please note: Height restrictions apply where overhead power lines cross the site. Works near water services utilities may require approval. Works near high-pressure Gas, Oil or LPG pipelines create risk of damage and must first be approved. Please contact the relevant Utility provider in your area for further information.

Any escape of gas or liquid from the pipelines is potentially dangerous and requires immediate action as soon as discovered (Dial 111 and ask for the Fire Service).

Attachments

As the placement of the building/s on the attached maps is based on aerial photography we cannot guarantee the accuracy. A formal survey will indicate the exact location of the boundaries.

AUCKLAND CITY ENVIRONMENTS

Reference Number:

Ref: 27a Kingsview Rd
Tcs Number: RO/97/811

Lloyd Kendrick
10 Keystone Avenue
Mt Roskill
AUCKLAND

Dear Sir

**RE: APPLICATION FOR NON-NOTIFIED DISCRETIONARY ACTIVITY
RESOURCE CONSENT AT 27A KINGSVIEW ROAD, MT EDEN TO
CONSTRUCT THREE TOWNHOUSES**

This is to advise you that resource consent was granted by the Team Planner, Resource Consents, Eden/Roskill on the 22nd day of April 1997 to the non-notified discretionary activity application by Lloyd Kendrick to:

- excavate below a recession plan of one down and two across within 20m of the western boundary
- carry out a maximum of 210m³ of earthworks
- remove one Port Wine Magnolia; one Sheoke, one Silver Birch and one Liquid Amber
- infringe living court provisions by constructing a pergola
- reduce the required access width from 4.5 metres to 3.66 metres

on the site at 27a Kingsview Road, Mt Eden, described as Lots 3, 4, 5, DP 37471 Part Allots 102 & 102 Section 10 Suburbs of Auckland, pursuant to Sections 104 and 105 of the Resource Management Act 1991.

Pursuant to Section 113 of the Resource Management Act 1991, the reasons for this discretionary activity consent are as follows:

- (a) Any adverse environmental effects of the proposed activity will be minor.
- (b) Granting of consent will not be contrary to the relevant objectives and policies of both the Operative and Proposed District Plans, and the Act's focus of sustainable management of physical and natural resources.
- (c) It is considered that any adverse effects generated by this proposal should be minor and conditions can be imposed to mitigate any potential effects that may occur during construction or in the future when the proposed work is complete.

Postal Address:
Private Bag 92516 Wellesley Street Auckland 1 New Zealand
Location:
Civic Building 1 Greys Avenue Auckland New Zealand
Telephone (09) 379-2020

Pursuant to Section 108 of the Resource Management Act 1991, this consent is subject to the following conditions:

- (i) The proposed activity shall be carried out in accordance with the amended plans submitted as part of this application, being referenced Sheets 1-6 (amended site plan inclusive), titled; "Development at 27a Kingsview Road, Mt Eden" undated. Council reference RO/97/811.
- (ii) That at the completion of the foundation stage and prior to the completion of the proposed new units, the applicant shall supply a certificate from a Registered Surveyor, certifying that the building will comply with the height-in-relation-to-boundary controls at all boundaries and that all units will comply with the maximum height control (8 metres) under the Proposed Auckland District Plan.
- (iii) To ensure the Totara tree on the neighbouring property at 34 Woodside Road, Mt Eden, shall remain unaffected by the proposed works, and in addition to Condition 5 below, no alteration to the present ground levels within the dripline of the Totara tree shall occur and if at any time in the future the area within the dripline is to be landscaped, that area shall be comprised of materials that are permeable and will allow water percolation to the roots of this tree.
- (iv) That a protective barrier shall be erected around the dripline of the Cabbage tree (located between units one and two) prior to any work commencing on the subject site and shall remain thereafter for the duration of the works. This barrier shall be erected in accordance with Annexure 5. It is intended that this tree remain unaffected by the proposed works.
- (v) That all work shall be carried out in accordance with accepted arboricultural practice.
- (vi) All work shall be carried out so as to meet those guidelines prescribed in Annexure 5 of the Proposed Auckland District Plan. (See copy attached).
- (vii) Within three months of the date of consent approval, the consent holder shall submit a detailed landscaping plan to the Team Leader (Special Projects and Monitoring), Auckland City Council, prepared by a qualified landscape architect, which shall include the planting of at least four specimen trees with a minimum rootball size of PB 150 and which identifies plants, species and locations on site of these plantings. An implementation and ongoing maintenance programme shall be included. The approved landscaping shall be undertaken in the first planting season immediately following completion of the units and shall be thereafter maintained to the satisfaction of the Team Leader (Special Projects and Monitoring) Auckland City Council.
- (viii) That pursuant to Section 409 of the Resource Management Act 1991 and Section 294 of the Local Government Act 1974, a development levy of \$5060.00 is payable based on the value of 20m² of land on the site for one of the three residential units in the development, and includes GST. Upon payment of this development levy, the Section 35 (Building Act 1991) which prevents work on the site from commencing and that is placed on the building consent (as a green sticker) will be uplifted and work on the subject site shall be allowed to commence thereafter.

- (ix) All site works shall be carried out in such a way so as not to create a dust nuisance on the site or the surrounding area.
- (x) All excavation work and associated activities, such as transporting any soil off the site, shall be confined within all boundaries of the subject site and shall take place between the hours of 8.00am and 5.00pm Monday to Friday and Saturday 8.00am to 1.00pm, with no work to be undertaken on Sundays or Public holidays.
- (xi) Noise levels arising from construction work, shall comply with noise controls as outlined under Rules 4A.1.D(a) to (f) of the Proposed District Plan. (See copy attached).
- (xii) Any stormwater run-off arising from earthworks, shall be contained and treated via an appropriate sediment control device to avoid additional sedimentation of the stormwater system and local creek. The location and specifications of the sediment control device, shall be in accordance with the ARC Proposed Regional Plan on Sediment Control. The methods of control are also outlined in Annexure 14 (Copy attached).
- (xiii) The applicant shall install, to the satisfaction of Council, a wheel wash to prevent the depositing of earth on the surrounding streets. In the event that material is deposited on the street, the applicant shall take immediate action, at their expense, to clean the street.
- (xiv) The applicant shall take all measures necessary to ensure that the structural integrity of the adjoining properties is not compromised by the proposed excavations.
- (xv) That the applicant or consent holder (as applicable) pay to Council a consent compliance monitoring charge of \$80.00 (inclusive of GST), plus any further monitoring charges based on actual or reasonable costs, for any additional inspections deemed necessary by the Council, to ensure compliance. The \$80.00 (inclusive of GST) charge is to be paid as part of the resource consent fee, and the consent holder will be advised of the further monitoring charges as they fall due and such charges are to be paid within one month of the date of the invoice. (This charge is to cover the cost of inspecting the site, carrying out tests, updating files, etc., all being work to ensure compliance with the resource consent).

ADVICE NOTES

1. The applicant needs to obtain all other necessary consents and permits, including those under the Building Act 1991, and comply with all relevant Council Bylaws.
2. This resource consent will expire two years after the date of commencement of consent **unless:**
 - (a) It is given effect to before the end of that period; or,

- (b) Upon an application made up to 3 months after the expiry of that period (or such longer period as is fixed under Section 37 of the Resource Management Act), the Council fixes a longer period. The statutory considerations which apply to extensions are set out in Section 125(1)(b) of the Resource Management Act 1991.

If you disagree with any of the conditions numbered (i) to (xv) you have a right of objection pursuant to Section 357 of the Resource Management Act 1991 which shall be made in writing to Council within 15 working days of notification of the decision. Council shall as soon as practicable consider the objection at a hearing upon payment of the necessary fee. If you do not intend to object to any of the above conditions numbered (i) to (xv), please inform Council in writing as soon as possible.

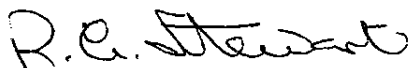

This consent does not constitute building consent approval. Please check as to whether or not a building consent is required under the Building Act 1991. If a building consent application is already lodged with Council or has already been obtained you are advised that unless otherwise stated, the use shall not commence until conditions of this resource consent have been met.

If this consent and its conditions alter or affect a previously approved building consent for the same project you are advised that a new building consent may need to be applied for.

Please also take note that pursuant to Sections 116 and 125 of the Resource Management Act 1991 a resource consent lapses on the expiry of 2 years after the date of commencement of the consent unless the consent has been given effect to within this time or the expiry of such shorter or longer period as is expressly provided for in the consent. An application may be made pursuant to Section 125 of the Resource Management Act 1991 for an extension of time in relation to this consent. Unless otherwise stated all conditions and requirements shall be met before the use commences.

If you have any further queries regarding this decision please contact the undersigned.

Yours faithfully

ROBYN STEWART
SENIOR ADMIN ASSISTANT
LAND USE CONSENTS
